Workhouse Prisoner Disposed of by an Evening Paper With Sad Abandon - Time is Coming When no Man Will be Safe.

An evening paper last night very ympathetically told of the demise at the city prison of Dan Grim, commit-ted on Monday on a lrunkenness charge for thirty days' confinement. charge for thirty days' confinement. Grim was harboring the remnants of a protracted jag when arrested, and previous exposure and lack of attention combined to make his case a pittable one. He has since been very ill, but was able last night to read his obituary in the News. Grim is a man about forty-eight years of age, and has no home, living about the South Side in a shiftless way. If the festive reportorial pencil continues to kill off people in this manner no man will be safe.

Second, they are tablets, which is the scientific form of preparing medicine. Third, there are never any bad after effects from their use. Fourth, they act directly upon the kidneys; they are strictly a kidney cure and nerve tonic. Fifth, you do not have to quit work while using Kid-ne-olds. A fity-cent box contains enough for about two weeks' treatment. People use Kid-ne-olds, because they cure kidney alments.

Here is what Mrs. R. D. Seeley, 41 Eradford street, Charleston, says: "I suffered for some time with pains across the small part of my back; at times they would be very severe and rendered it almost impossible for me to get about: I was very nervous and could not alsep at night. My condition was radually growing worse and I felt just like I was going to have a sever sick spell and was afraid of a spell of fever. I rend about Morrow's Rid-ne-olds and where they were guaranteed to cure lame back and nervousness, so I decided to try them. I obtained some at the drug store and began taking them at once according to the directions; in a day or so the pains disappeared from my back and I began to improve and feel better in every way and in a remarkably short time I was feeling perfectly well again and have been so ever since.
